*2008 has been unique,
2009 will be exceptional*

Yes We Did!

The election was an extremely busy period for us. AVA had followed everything from the beginning to the very happy end without missing a piece!

Today, AVA cannot wait to cover the inauguration day of our new President Barack Obama on January the 20th. Stay tuned for the videos!

Coming Soon @ AVA

Coming soon in January 2009, Reina will be proud to introduce you to her new and first show about the AV world!

You will be able to learn everything about the basic AV operations and more by just going on our web site. Reina and personalities from the AV industry will show you how fun doing AV can be and she will give you interesting tips in her practical guidelines segment called "How not to look stupid".

Join The Digital Age

Switchers and Teleprompter (teleprompter on camera and presidential teleprompter) are in increasing demand. DIVENTIX switcher is a Full Digital Computer and Video Up/Down Mixer Scaler Switcher. In addition to numerous effects such as fade, wipes, moving PIP and a true 8x2 scaled Matrix; Diventix also includes a stand alone Soft Edge function on to 2 projectors.

We continue to be focused on delivering superior service, support, and products to our clientele ranging from small dinner presentations, full day meetings, to large multi-day conference events.

Our Production Services - Multi cameras switch and Tricaster with our Folsom screen pro plus was another hit. Furthermore, our new Laptop, MACBOOK PRO allowed us to always serve you with the best quality and latest technology on the spot!

And in terms of cameras, the coolest thing about the DSR 500 SONY is that it has native 16x9 chips. This means that it really looks amazing. Additionally, with twice the chip size of a normal consumer camera, this camera really has colors that pop. Finally, with the 16x lens with 2x extender, you can get incredible close-ups from long distances. Finally, with 184 minute tapes you can record a substantial amount of time on one tape. Absolutely wonderful!

AVA In More Places

AVA is happy to inform you that now we are serving New York City and Philadelphia

With more and more shows over there, we decided to extend our services and satisfy more clients!
